Suja Vijayan

Hi. You were talking abt your farady cage. Pls explain succinctly so everyone knows your method. Thanks for coming back.

A fellow of name Heikki Lääkkö said Faraday Cage is not metamaterial but he is wrong because the walls of my faraday cage is all homemade metamaterials

Wilhem Reich was the first to create metamaterials using metal and cellulose those two together plus humidity they make the velocity light near the velocity of an electron

Suja Vijayan

Its ok. Pls explain patiently. All might not be online.

and the metamaterias by oxidation of componets and graphite molecular chage generate ramdom impedance so I have successfully stopped syntehtic telepathy even when I have positive ID IBM microcnhip on my body

When the Faraday Cage works it makes the clock runs slowly and it is like being in a fast aircraft one stays a minute and when one is out a day has passed in that minut the energy of boyd is maximized by the accumulation of positive gravity like described by Wilhem Reich \Orgone and Einstein for faraday cages that resemble a hollow sphere accelerate and the attacking satellite cannot keep track of the microchip

Rainetta Jones

Like the one they put inside of me

Wilhem Reich met Einstein and both agreed a Faraday Cage accumulates energy vital life time insde is slower humans age less revover energy that is the secret why Wilhelm was assassinated he was explaing how THE FITAL FORCE builds in a human by means of Eisntein Hollow Sphere so the VITAL FORCE grows inside any Faraday Caga by physics

Phusics explains it but the Faraday Cage must be resemble an all sides conductive structure even floor with many layers I use FIFTY layers of metamaterials

Suja Vijayan

Possibly the hacker perp that has admin control of a TI's facebook account is doing it.

Reich was explaing inside a faraday cage humas age less faster due to energy accumulation just like Eisntein proved / Very much so facebook do not want people to realize synthetic telepathy can be stopped by fifty layers of metamaterials with variable impedance as a result of metal scraps oxidation in moist cellulose

Martin Bott

Easiest is to use underground structures, like tunnels, caves or mines. If they dont have access to hide something inside the structure.

Suja Vijayan

It is not practical.

Martin Bott

I have done it.

Suja Vijayan

Unless builders are told to have basement structures built as part of their approved plans across countries.

Ariel Perez

Thank Martin. Large structures act as protection preventing signals.

Suja Vijayan

Are you now living in one?

Martin Bott

No, I am lucky enough to live near the frontier and often cross over the border.

Suja Vijayan

So, u cross over the frontier, and the targeting stops? Do you get targeted when you are in your house and within the frontier?

When Synthetic Telepathy stops there is INTENSE RELATIVISTIC effect, one stops the telepathy but one is OUT OF THE PLANET'S CLOCK, in this situation the body and mind heals faster because the person gets lots of free energy, proven by Einstein and Reich so the MASER MIND CONTROL becomes a postive energy and one gets control of the attacking supercomputer, once one stops synthetic telepathy one gots total control over all eletronic system because then the energy of the supercomputer serves one as a slave.

If the Faraday Cage is powerful enough to stop synthetic telepathy the INVERTED MASER MIND CONTROL puts all the attacking enery and computer power to the service of the brain that stats to emulante the supercomputer as a slave and one becomes KIING.

Suja Vijayan

How did you make it?

But if the human is a retard and do not know how to build a Faraday Cage all enery alll life force is drained from the mind conrol victim and he or she becomes enslaved

An all conductive structure like a sponge

get a sponge

roof floor and all walls

soak the sponge in graphite

get ore sponge all over it

soak it in black 11 magnetite  
get more sponge to cover it all and add AL2O3 the white alumina powder  
cover it all over again  
then start adding scraps of metal  
pieces of copper iron and other metals to get in the sponge  
then more layer of sponge this time with graphite  
when one gets many layers  
the metals and the water in the sponge will generate semiconductors plus graphene and vanadate  
which are superconductors  
Suja Vijayan

Could you share few pictures?

the electricity from the metals touching each other via the conductive ionic sponge will generate in this meta material a random resonance and time inside it stops

I do better, if you visit me in Brazil you enter my Faraday Cage it is 50 meters square

Andrea Giotti

then you judge for yourself

it has the sing of the RED CROSS IN THE ROOF

I am reporting my findings to all other RED CROSSES world wide

but you can achieve it where you are

Andrea Giotti

Sorry i clicked the "like" unintentionally.

Suja Vijayan

Visiting Brazil might not be an option for most of the TIs in this group I think.

Suja Vijayan

And why red cross?

Martin Bott

The German BND tries everything to cause the impression that they can do abroad whatever they want. They even tried to blame the local authorities, the US, or the Jews. Which of course is completely stupid. But they have some problems to maintain the pressure abroad, because no country likes it if a foreign secret service is operating on its territory.

Martin Bott

This is also the reason why other countries prefer to look away, if foreigners are being tortured and forced back to their own country. TI gone, foreign secret service also gone.

The Faraday Cage we THE RED CROSS have built in our DETECTION OUTPOST in Brazil uses EINSTEIN theory THAT MASS will accumulate on a sphere making it massive and in fact, THE FARADAY STRUCTURE under MASER MIND CONTROL ATTACK traps the energy in the walls in the metamaterials above described and the Faraday Cage becomes what Einstein called MASSIVE HOLLOW SPHERE, inside there is no time, no cell phone signal, no radio signal and

thje compass cannot find North, South , East , West, and like Wilhelm Reich said this kind of structure that makes time slower boosts health and the person inside has the age process reversed, instead of accelerated ageing generated by maser sucking out energy the energy of the maser from the satellite will be building up in the walls generating almost INFINITE MASS in the metamaterials, and our RED CROSS OFFICE achieved that and all can achieve it but facebook delets all information and our blogs are deleted because I am telling you the truth.

Faraday cages don't work, the system can compute impedance mismatch thus penetrating the cage. You would need a metamaterial enclosure, power source and a computer. Then change metamaterial impedance randomly to achieve reflection.

By the way, as I previously said, the particle which carries the signal is not a common photon. It may be the so-called "magnetic photon" (Abdus Salam 1966). It cannot be shielded by ordinary means.

Suja Vijayan

Guys - @zemi - many TIs have an issue with socialisation in their original name, as they do not want to mix their TI & non-TI friends. So if you want to call them out, do it so in person pls. And let us be open about all possibilities of shielding & detection until we have technical proof on their methods. I think that approach would be wise. We shd encourage people to experiment and tell what works for them.

Nara Subra

can some one give a clue about these magnetic shielding.

By the way, as I previously said, the particle which carries the signal is not a common photon. It may be the so-called "magnetic photon" (Abdus Salam 1966). It cannot be shielded by ordinary means.

Suja Vijayan

Guys - @zemi - many TIs have an issue with socialisation in their original name, as they do not want to mix their TI & non-TI friends. So if you want to call them out, do it so in person pls. And let us be open about all possibilities of shielding & detection until we have technical proof on their methods. I think that approach would be wise. We shd encourage people to experiment and tell what works for them.

Nara Subra

can some one give a clue about these magnetic shielding.

We all talk about v2k and what type of wave carries audio but what type of wave could carry a smell

Rainetta Jones

Creepy, this is what they are doing to us.

Kenneth Kilpatrick

As I've said before this is a computer system with software n hardware if we could find more info on that it would help

Rainetta Jones

Kenneth did you see my post someone just sent it to me

Suja Vijayan

They can view, edit & erase (ctrl+alt+del) all your sensory data. Do read up on RNM.

Rainetta Jones

Yup, I am a victim of this. They shut off the water and I induced my monthly cycle

Kenneth Kilpatrick

What website or did u just google it

Kenneth Kilpatrick

I do believe your right about the sensory data I've experienced it

Kenneth Kilpatrick

It comes back though  
Rainetta Jones

Just sent the link. Someone sent it to me and I googled it for authenticity.

Hi. You were talking abt your farady cage. Pls explain succinctly so everyone knows your method.  
Thanks for coming back.  
A fellow of name Heikki Lääkkö said Faraday Cage in not metamaterial but he is wrong because the walls of my faraday cage is all homemade metamaterials  
Wilhem Reich was the first to create metamaterials using metal and cellulose those two together plus humidity they make the velocity light near the velocity of an electron  
Suja Vijayan

Its ok. Pls explain patiently. All might not be online.  
and the metamaterias by oxidation of componets and graphite molecular chage generate ramdom impedance so I have successfully stopped syntehtic telepathy even when I have positive ID IBM microcnhip on my body  
When the Faraday Cage works it makes the clock runs slowly and it is like being in a fast aircraft one stays a minute and when one is out a day has passed in that minut the energy of boyd is maximized by the accumulation of positive gravity like described by Wilhem Reich \Orgone and Einstein for faraday cages that resemble a hollow sphere accelerate and the attaciking satellite cannot keep track of the microchip

S.O.S <https://www.facebook.com/verasantos.ribeiro.1> telepatia sintetica content got b locked out when explaining faraday cage to Heikki Lääkkö the fellow Heikki Lääkkö was explaing that Faraday Cage needs to be metamaterial and I was explaining to him how I achieved variable impedance and successfully stopped synthetic telepathy after fifty layers of anti radar generating

and IONIC SPONGE of meta materias which was so strong as to generate what Einstein called HOLLOW SPHERE, then when we were getting more TI to understand the Faraday Cage I was instantly blocked out all my content disappeared, to you the impedance ramdom I created to stop synthetic telepathy operating in emergency mode please add this explain to others when we talk real science content is blocked out information have been deleted my telepatia sintetica account all info disapeared Dear Heikki Lääkkö I was explaing to you at DEW Case Mailer how I blocked out synthetic telepahy using scrápss of metals of different atomic numbers to generate ramdp,impedance in the graphite, black 11 oxide, alumina cellulose vrious layers water semionductors so the fifty layers of ant radar shielding in the faraday cage blocked out syntyhetic telepathy bring the satellite maser clock out of synchronicity as graphite under laser attack becomes graphene and vantablack and the struture is a plastic sponge of variable impedance that will absorb more an more maser as time passes by but as you were explaining the interferometry and I was agreing my account was blocked all my postings have been deleted when I mentioned that the clock in the hollow sphere generatated by metamaterial makes the clock run slower it generates relativistic effect all explained how a faraday cage that stops synthetic telepathy like I have achived works facebook deleted all posts I no longer appear in any groups all relevant RED CROSS INFO have been deleted... strange phenomena like an U.F.O all disapeared.

Like the one they put inside of me

Wilhem Reich met Einstein and both agreed a Faraday Cage accumulates energy vital life time inside is slower humans age less revover energy that is the secret why Wilhelm was assassinated he was explaing how THE FITAL FORCE builds in a human by means of Eisntein Hollow Sphere so the VITAL FORCE grows inside any Faraday Caga by physics

Phusics explains it but the Faraday Cage must be resemble an all sides conductive structure even floor with many layers I use FIFTY layers of metamaterials

Suja Vijayan

Possibly the hacker perp that has admin control of a TI's facebook account is doing it.

Reich was explaing inside a faraday cage humas age less faster due to energy accumulation just like Eisntein proved / Very much so facebook do not want people to realize synthetic telepathy can be stopped by fifty layers of metamaterials with variable impedance as a result of metal scraps oxidation in moist cellulose

Martin Bott

Easiest is to use underground structures, like tunnels, caves or mines. If they dont have access to hide something inside the structure.

Suja Vijayan

It is not practical.

Martin Bott

I have done it.

Suja Vijayan

Unless builders are told to have basement structures built as part of their approved plans across countries.

Ariel Perez

Thank Martin. Large structures act as protection preventing signals.

Suja Vijayan

Are you now living in one?

Martin Bott

No, I am lucky enough to live near the frontier and often cross over the border.

Suja Vijayan

So, u cross over the frontier, and the targeting stops? Do you get targeted when you are in your house and within the frontier?

When Synthetic Telepathy stops there is INTENSE RELATIVISTIC effect, one stops the telepathy but one is OUT OF THE PLANET'S CLOCK, in this situation the body and mind heals faster

because the person gets lots of free energy, proven by Einstein and Reich so the MASER MIND CONTROL becomes a positive energy and one gets control of the attacking supercomputer, once one stops synthetic telepathy one gets total control over all electronic system because then the energy of the supercomputer serves one as a slave.

If the Faraday Cage is powerful enough to stop synthetic telepathy the INVERTED MASER MIND CONTROL puts all the attacking energy and computer power to the service of the brain that starts to emulate the supercomputer as a slave and one becomes KING.

Suja Vijayan

How did you make it?

But if the human is a retard and do not know how to build a Faraday Cage all energy all life force is drained from the mind control victim and he or she becomes enslaved

An all conductive structure like a sponge

get a sponge

roof floor and all walls

soak the sponge in graphite

get ore sponge all over it

soak it in black 11 magnetite

get more sponge to cover it all and add AL2O3 the white alumina powder

cover it all over again

then start adding scraps of metal

pieces of copper iron and other metals to get in the sponge

then more layer of sponge this time with graphite

when one gets many layers

the metals and the water in the sponge will generate semiconductors plus graphene and vanadate which are superconductors

Suja Vijayan

Could you share few pictures?

the electricity from the metals touching each other via the conductive ionic sponge will generate in this meta material a random resonance and time inside it stops

I do better, if you visit me in Brazil you enter my Faraday Cage it is 50 meters square

Andrea Giotti

then you judge for yourself

it has the sign of the RED CROSS IN THE ROOF

I am reporting my findings to all other RED CROSSES world wide

but you can achieve it where you are

Andrea Giotti

Sorry I clicked the "like" unintentionally.

Suja Vijayan

Visiting Brazil might not be an option for most of the TIs in this group I think.

Suja Vijayan

And why red cross?

Martin Bott

The German BND tries everything to cause the impression that they can do abroad whatever they want. They even tried to blame the local authorities, the US, or the Jews. Which of course is completely stupid. But they have some problems to maintain the pressure abroad, because no country likes it if a foreign secret service is operating on its territory.

Martin Bott

This is also the reason why other countries prefer to look away, if foreigners are being tortured and forced back to their own country. TI gone, foreign secret service also gone.

The Faraday Cage we THE RED CROSS have built in our DETECTION OUTPOST in Brazil uses EINSTEIN theory THAT MASS will accumulate on a sphere making it massive and in fact, THE FARADAY STRUCTURE under MASER MIND CONTROL ATTACK traps the energy in the walls in the metamaterials above described and the Faraday Cage becomes what Einstein called MASSIVE HOLLOW SPHERE, inside there is no time, no cell phone signal, no radio signal and the compass cannot find North, South, East, West, and like Wilhelm Reich said this kind of structure that makes time slower boosts health and the person inside has the age process reversed, instead of accelerated ageing generated by maser sucking out energy the energy of the maser from the satellite will be building up in the walls generating almost INFINITE MASS in the metamaterials, and our RED CROSS OFFICE achieved that and all can achieve it but Facebook deletes all information and our blogs are deleted because I am telling you the truth.
